**Letter of Recommendation**

The Azerbaijani Bar Association is a non-governmental, independent, self-regulating organization including all lawyers of Azerbaijan and established for purposes of protecting the rights and freedoms of every person, to provide them with professional, high quality legal assistance and to enhance the prestige of the legal profession.

To automate financial processes of our company we appealed to LLC "Best Soft" - a 1C franchisee company. They have picked up a software product "1C: Complex automation" and adjusted it for our company. The company's specialists drew up a work schedule. In parallel with the automation of the company's financial accounting, training was conducted for the users. Despite the fact that the work was extensive, the specialists of the Best Soft Company coped with it in a short period of time. After the successful completion of the project, we are continuing to cooperate with the Best Soft Company in support, which we would like to kindly advice any businesses to cooperate with the Best Soft Company.

**Sincerely,**

**Anar Baghirov,  
Chairman**
